

James Greenfield

To the Town of Melancthon:

My name is James Greenfield and I have been a residence of Melancthon for 10years. As you may know the spring weather brings a lot of showers, and those showers bring flooding. We live on 5th Line Melancthon and have seen the damage of the road. There is so much mud, water and many trenches .One trench is 1 to 2 feet deep. Also there are many children and teenagers who take the bus that goes along this road. The bus gets bounced around badly while trying to avoid the muddy section. One bus almost got stuck while trying to avoid the trench. I have seen how bad this road is and it's not pretty at all. We pay taxes and expect this road to be acceptable. It must be dug out and permanently repaired. Below are signatures that live on 5th line Melancthon who agree to have this road repaired.

Sincerely
James
Greenfield.
